Product Declaration - LEED® 2009 New Construction And Major Renovations NC & CS

Manufacturer GEZE GmbH

Product Name Ecchain

### **Product Rating**

• The product contains 15.3% recycled materials and contribute to achieve LEED credits within MR Credit 4.

Indoor Environmental Quality (IEQ) - LEED Category							
IEQ Credit 4.1	: Low Emitting Materials:	Adhesives and Sealants	1 Point	0			
IEQ Credit 4.2	: Low Emitting Materials:	Paints and Coatings	1 Point	0			
IEQ Credit 4.3	: Low Emitting Materials:	Flooring Systems	1 Point	0			
IEQ Credit 4.4	: Low Emitting Materials:	Composite Wood and Agrifiber Products	1 Point	0			
Materials and	Resources (MR) - LEED	) Category					
MR Credit 4:	Recycled Content		1-2 Points	15%			
MR Credit 5:	Regional Materials		1-2 Points	See Location			
MR Credit 6:	Rapidly Renewable Ma	aterials	1 Point	0			
MR Credit 7:	Certified Wood		1 Point	0			

### **Product Characteristics**

Electric chain drive for daily aeration and ventilation for vertically installed windows with inward and outward opening bottom-hung, top-hung and side-hung casements.

Direct opener in 230V version. The stroke can be adjusted via the cable connection on the drive to 200 and 400 mm. The drive is equipped with built-in limit switches and overload protection. Overload cut-off is controlled electronically. Drive brackets and chain attachments allow easy installation from the front

Stroke: 200 and 400 mm

Tensile force/pressure: 250 N/250 N

Voltage: 230 V AC.

## About LEED & Products - www.usgbc.org

This declaration helps to assess products easily according the certification system LEED® 2009 New Construction and Major Renovations NC & CS (excluded SCHOOLS). Products are not reviewed or certified by LEED. LEED credit requirements cover the performance of materials in aggregate, not the performance of individual products or brands. For more information about LEED visit www.usgbc.org/leed. The project team or the manufacturer is responsible to declare the compliance with the project requirements to achieve LEED points.

Below you find an explanation of the symbols. Detailed information are on the next pages.

- Credit requirements fulfilled the credit point can be achieved
- Credit is not applicable to this product
- 22% X% of the product comply with the credit requirement
- Required data not specified for required data contact manufacturer
- X Credit requirements are not fulfilled

## Product Declaration - LEED® 2009 New Construction And Major Renovations NC & CS

Manufacturer GEZE GmbH

Product Name Ecchain

## MR Credit 4: Recycled Content (1-2 Points)

#### Intent

To increase demand for building products that incorporate recycled content materials, thereby reducing impacts resulting from extraction and processing of virgin materials.

#### Requirement

Use materials with recycled content\* such that the sum of post-consumer\*\* recycled content plus one-half of the pre-consumer\*\*\* content constitutes at least 10%/20% (based on cost) of the total value of the materials in the project.

The minimum percentage materials recycled for each point threshold is as follows:

- 10% Recycled Content -> 1 Point
- 20% Recycled Content -> 2 Points.
- \* Recycled content is defined in accordance with the International Organization of Standards document, ISO 14021 Environmental labels and declarations Self-declared environmental claims (Type II environmental labeling).
- \*\* Postconsumer material is defined as waste material generated by households or by commercial, industrial and institutional facilities in their role as end-users of the product, which can no longer be used for its intended purpose.
- \*\*\* Preconsumer material is defined as material diverted from the waste stream during the manufacturing process. Reutilization of materials (i.e., rework, regrind or scrap generated in a process and capable of being reclaimed within the same process that generated it) is excluded.

#### **Detailed Rating**

No	Product Name	Manufacturer	Recycled Post- Consumer	Content Pre- Consumer	Contribution of Product	
A1	Steel parts	GEZE GmbH	25%**	0%	Accountable recycled content according to LEED is 25% (1 x Post-Consumer + 0.5 x Pre-Consumer).  **LEED default recycled content for steel	25%
A2	Copper	GEZE GmbH	Not specified	Not specified	No recycled content specified.	_
А3	Zinc die-cast	GEZE GmbH	Not specified	Not specified	No recycled content specified.	_
A4	Plastics	GEZE GmbH	Not specified	Not specified	No recycled content specified.	_

Manufacturer GEZE GmbH

Product Name Ecchain

## MR Credit 5: Regional Materials (1-2 Points)

#### Intent

To increase demand for building materials and products that are extracted and manufactured within the region, thereby supporting the use of indigenous resources and reducing the environmental impacts resulting from transportation.

#### Requirement

Use building materials or products that have been extracted, harvested or recovered, as well as manufactured, within 500 miles of the project site for a minimum of 10% or 20%, based on cost, of the total materials value. If only a fraction of a product or material is extracted, harvested, or recovered and manufactured locally, then only that percentage (by weight) must contribute to the regional value. The minimum percentage regional materials for each point threshold is as follows:

- 10% Regional Materials -> 1 Point
- 20% Regional Materials -> 2 Points.
